About ITROOTS

At ITROOTS, we believe in transforming potential into professional excellence.
With over two years of proven success in Online training, ITROOTS now brings its industry-focused expertise OFFLINE , empowering learners across India to become job-ready professionals.

Our mission is to equip every learner with industry-ready skills, hands-on experience, and career confidence through AI-integrated, project-based learning.

Why Choose ITROOTS?

Choosing the right training partner can define your career and at ITROOTS, we turn your goals into guaranteed outcomes.

Why learners and employers trust us:

100% Placement Guarantee: We ensure every learner achieves their career goal.

Refund Guarantee: If we don't deliver as promised, your investment is safe.

Post-Placement Support: Continued guidance even after you're hired.

Lifetime Career Assistance: Ongoing mentorship and growth support

Project-Oriented, AI-Integrated Training: Learn through live, industry-level projects.

Expert Mentorship: Trainers with 10+ years of industry experience

Daily 5–6 Hours of Practical Training: Focused, hands-on sessions.

Regular Assessments & Mock Interviews: Build confidence before stepping into interviews.

At ITROOTS, you don't just learn, you build, apply, and grow with every step.

Program Overview

The Java Full Stack Development (AI-Integrated) Program is a complete 6-month career transformation journey designed to make you an industry-ready developer.

You'll learn to build applications from scratch to mastering frontend, backend, and database development, while integrating AI tools that enhance productivity, debugging, and real-world problem-solving.

Duration: 6 Months **Mode :** Online / Offline

Ideal for: Graduates, Job Seekers, and Working Professionals

The Learning Journey

Every learner at ITROOTS follows a path that ensures real progress and measurable results:

Enroll & Set Goals

Begin your transformation with a clear career roadmap.

Learn Intensively

Master Java and AI through focused, daily sessions.

Build & Innovate

Work on real, AI-integrated projects that sharpen your skills.

Test & Improve

Strengthen your performance with assessments and mock interviews.

Get Placed

Land your dream job with our 100% placement guarantee.

Keep Growing

Enjoy lifetime mentorship and career guidance - always.

Syllabus

Java Fundamentals

Introduction to Java | JVM, JRE, JDK Architecture | Installing Java & Environment Setup | First Java Program | Compilation & Execution Flow | Data Types & Variables | Type Casting | Operators – Arithmetic, Relational, Logical, Bitwise | Input/Output in Java | Comments & Code Structure | Weekly Test + Hands-On Revision + Q&A

Control Statements & Loops

Decision Making – if, else-if, nested if | Switch Case | Loops – for, while, do-while | Loop Control – break, continue | Nested Loops | Pattern Programs | Debugging Techniques | Weekly Test + Coding Challenges + Q&A

Object-Oriented Programming

Class & Object Creation | Constructors – Default, Parameterized | this & super Keyword | Static Keyword | Method Overloading (Compile Time Polymorphism) | Method Overriding (Runtime Polymorphism) | Inheritance – Single, Multilevel, Hierarchical | Abstraction – Abstract Class & Interface | Encapsulation – Getters/Setters | Access Modifiers | Packages & Import | Weekly Test + OOP Coding Assignments + Q&A

Strings & Arrays in Java

1D & 2D Arrays | Array Traversal & Manipulation | Searching & Sorting (Java Implementation) | Strings – Immutable Concept | String Methods | StringBuilder & StringBuffer | Common String Problems – Palindrome, Anagram, Subsequence, Frequency Count | Weekly Test + Problem-Solving Session

Exception Handling

Introduction to Exceptions | Types – Checked & Unchecked | try–catch–finally | throw & throws | Custom Exception Creation | Nested Try Blocks | Practical Error Handling Scenarios | Weekly Test + Hands-On Exception Practice + Q&A

Syllabus

Java Memory & Advanced Concepts

Stack vs Heap Memory | Garbage Collection | Wrapper Classes | Autoboxing & Unboxing | Varargs | Enum | Java Annotations (Intro) | Final Keyword | Weekly Assessment + Revision

Collection Framework

Stack vs Heap Memory | Garbage Collection | Wrapper Classes | Autoboxing & UnboxIntroduction to Collections | List – ArrayList, LinkedList | Set – HashSet, LinkedHashSet, TreeSet | Map – HashMap, LinkedHashMap, TreeMap | Iterator & ListIterator | Comparator & Comparable | Sorting Collections | Queue & PriorityQueue | Common Algorithm Problems Using Collections | Weekly Test + Coding Challenges + Q&A

Multithreading

Thread Class, Runnable Interface | Thread Lifecycle | Synchronization | Inter-Thread Communication | Deadlock & Race Conditions | Thread Priority | Executor Framework (Intro) | Practical Multithreading Problems | Weekly Test + Hands-On Revision

File Handling

File Class | Reading Files – FileReader, BufferedReader | Writing Files – FileWriter, BufferedWriter | Byte Streams | Serialization & Deserialization | Real-Time File Operations | Weekly Test + Coding Assignments

JDBC (Java Database Connectivity)

JDBC Architecture | Steps to Connect Java with Database | DriverManager, Connection, Statement | PreparedStatement | CRUD Operations | Batch Processing | ResultSet Handling | Handling SQL Exceptions | Building a Java + MySQL Mini Application | Weekly Test + Assignment Project + Q&A

Java Full Stack Modules

MODULE -1

Programming Fundamentals

- Introduction to programming languages
- Data Types, Variables, Arrays, Strings & Operators
- Control statements & Looping statements
- Functions, File handling
- Data structure overview

SQL

- Syntax, Data types, Operators
- DDL, DML, DCL
- Constraints
- Clause, Keys, Functions
- SQL Joins

Soft Skill

- Communication skills
- Group discussion
- Writing skills
- Interview skills
- Resume writing

MODULE-2

Core Java

- Introduction to Java Data Types, Variables, Strings, Operators
- Control & Looping statements
- OOP's – Class, Object, Inheritance,
- Polymorphism, Abstraction, Encapsulation

Core UI

- HTML
- CSS
- Java Script
- Boot Strap
- J Query

Aptitude

- Number system, percentages, profit & Loss, simple interest
- Compound interest, Ratio, Proportion,
- Averages Mixtures and Allegations
- Time And Work, Time Speed and Distance,
- Permutation and Combination, Probability,
- Geometry,
- Number Series, Coding Decoding, Directions,
- Blood Relations, Puzzle Based Problems, Cube
- & Dice, Set Theory etc.

MODULE-3

Core Java

- String class, Collection Framework
- Exception Handling, Multithreading
- JDBC
- Hibernate

Advance UI

- React /Angular

Mini Projects

- Student Management System
- Product Inventory Management System

MODULE-4

Advance Java

- J2EE – JSP, Servlet
- Spring Core
- Spring MVC
- Spring Boot

Real World Projects

- Insurance Management System
- Loan Granting System

Pre-Placement activities

- CV Preparation
- Interview Preparation
- Group Discussion

MODULE-5 to MODULE-7

Major project with Advanced Training

Real World Project : Insurance

Loan Granting System

1.Project Scope

The main objective of this project is to create a secured, robust loan management system. Here, all the information on Loan is available to every user 24*7.

2.Landing Page

Home Page
About Us Page
Contact Us

3.Account

Login Page Sign Up Page

4.Loan Application

Normal User can apply for loan and also can view applied loan status Admin can assign loan officer and field officer for particular application Field officer can do cross check of all documents and make remark Loan officer can review loan application can approve/reject Loan application

5.Admin

Admin can add/modify/delete user
Admin can add/modify/delete loan officer
Admin can add/modify/delete filed officer
Admin can generate all kind of reports

Insurance Management System

1.Project Scope

The main objective is to build a secured, robust insurance management system where the policies are managed properly. All the information of user, their policy, category of insurance is maintained on a single platform.

2.Landing Page

Home Page
Category Page
Sub-Category Page
Policy Page

3.Account

Login Page
Sign Up Page

4.Category

Admin can add/modify/delete category
Normal User can view and get details of categories

5.Sub-Category

Admin can add/modify/delete sub-category Normal User can view and get details of sub- categories

6.Policies

Admin can add/modify/delete Policy
Normal User can view and get details of Policy Normal User can apply for policy
Admin can approve/reject policy request
User can see details of all enrolled policies

Our Role in Your Success

At ITROOTS, our commitment goes beyond teaching. We partner with you throughout your career journey. From learning the latest technologies to securing your dream job, we make sure you're guided, supported, and ready for real-world success.

1. Skill Advancement & Technology Mastery

We train you in the most in-demand tools and technologies used by leading IT companies.

You'll master:

- Frontend: HTML, CSS, JavaScript, Bootstrap, React / Angular
- Backend: Core Java, Spring Boot, Hibernate
- Database: MySQL, Oracle
- Tools & AI: Git, JIRA, Jenkins, AI-powered coding tools
- Practices: Agile, SDLC, MVC Architecture

Each session combines concepts with hands-on practice, ensuring you graduate with industry-ready skills and real project experience.

2. Continuous Career Support

We don't just train you; we prepare you to thrive.
Our dedicated career team provides:

- Resume & LinkedIn optimization
- Technical & HR mock interviews
- Personalized career counselling
- Access to exclusive job networks and hiring partners
- Lifetime mentorship for continuous growth and upskilling

3. Guaranteed Placement

Your success is our goal.
Through our Hire → Train → Deploy model, we ensure every learner is:

- Trained with AI-integrated, project-based sessions
- Evaluated through tests and mock interviews
- Deployed into top IT companies with complete career readiness

With our 100% Placement Guarantee and Refund Assurance, your journey with ITROOTS is result-driven, transparent, and focused on success.

Alumni Success Stories

ITROOTS is one of the best institutes for training and placement. The trainers are experienced, supportive, and always approachable. I completed my Full Stack Java Certification from ITROOTS and got placed as a Software Developer. Grateful to the entire ITROOTS team for their constant guidance.
~ **Priya Wagh**

Joining ITROOTS was the best decision for my IT career. In just six months, I learned Frontend, Backend, and Database technologies and got placed within a week after completing the course. The placement team is truly dedicated and helpful throughout the process.
~ Harsh Patil

ITROOTS is an excellent place for learning and placement. The team is very supportive and helps you build knowledge from the basics, even if you come from a non-IT background. Thank you, ITROOTS, for helping me start my career with confidence.
